**TRACKING** 

## WHAT IS TRACKING?

The sport of Tracking is to encourage dogs to make use of their srongest facility by simulating as closely as possible the seeking and finding of a missing person or object.

Tracking trials utilise a prelaid out track that the dogs follow based on tracking of a persons scent gained from items of clothing.

Judging is based on the dogs engagement, ability to scent the course, reaching designated scent markers along the course and ultimately finding the hidden person/object.

Tracking is generally conducted either on farm lands or bush settings.

Tracking is not a race through the course so anyone with a moderate level of fitness and enjoys walking through farm or bush land will be fine.

#### Why do Tracking with your dog?

Tracking is a great way for both you and your dog to get out in the bush or farm land. Both

you and your dog need an average level of fitness, enjoy walking in the bush and are happy to be out in all types of weather.

# FREQUENTLY ASKED QUESTIONS
